

Declaration of Compliance to Food Contact Regulations

ADVANCENE™ Polyethylene Series

We confirm that this product fulfils the requirements on materials used for articles or components of articles intended to come into contact with food as described in:

- Regulation (EC) No 1935/2004 – so far applicable to polymer pellets. The organoleptic characteristics of food contact materials are influenced by converting conditions, time and temperature of storage and type of food, therefore compliance with article 3 must be verified and tested by the producer of the final packaging material.
- Commission Regulation (EU) 2011/10 as amended.
- Commission Regulation (EC) 2023/2006. This material has been manufactured in accordance with the relevant requirements of good manufacturing practice for materials articles intended to come into contact with food.
- FDA, CFR, Title 21 (2011) §177.1520 Olefin Polymers.

It is the responsibility of the converter or food packer to verify that the final packaging complies with the overall and specific migration limits as set out by the applicable legislation.

Substances used for the manufacturing of this product are authorized as direct food additives ("Dual use additives") are either not used for the manufacturing of this product, kind of not migrating, or only present in quantities that in case of their migration don't allow relevant contribution to exceed of the limits as set in the applicable food legislation.
